FLOWCORE MEP LTD

Electrical | Mechanical | Infrastructure Solutions

Powering Critical Infrastructure

Specialist LV & HV distribution, switch room construction, mechanical installations, plumbing services, renewable energy infrastructure and 24 hour emergency cable repairs for industrial and commercial projects across the UK

24 HOUR EMERGENCY CABLE REPAIR RESPONSE

LV & HV Distribution

Low and high voltage power distribution systems.

Switch Rooms

Switch room construction, refurbishment and upgrades.

Mechanical Services

Plant rooms, cooling systems, pumps, valves and pipework.

Plumbing Services

Commercial pipework, hot and cold water systems.

Renewable Energy

Solar PV, inverter and battery storage infrastructure.

Emergency Cable Repairs

HV/LV fault finding, jointing and reinstatement.

Capability Statement

flowcoremep.co.uk

Core Services

Electrical Services

- LV & HV distribution systems
- Switchgear and transformer connections
- Form 4 switchboards and panel boards
- Cable containment and ladder rack
- Testing and commissioning

Mechanical Services

- Hot and cold water pipework
- Plant room installations
- Cooling infrastructure for data centres
- HVAC, pumps, valves and pipework
- Commercial plumbing systems

Infrastructure & Emergency

- Switch room construction
- Rail depot shore supplies
- Solar farm and battery storage works
- 24hr HV & LV cable repairs
- Fault finding and jointing services

Project Experience

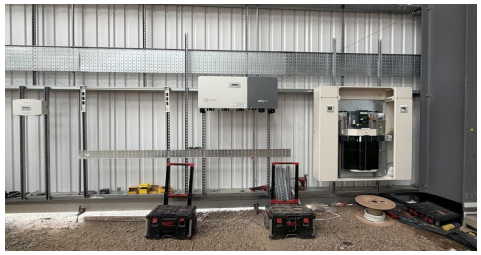

Germany Data Centre

11kV transformer infrastructure and power distribution.

National Distribution Co

Solar PV, 4 inverters, Schneider panel board and Form 4 switchboard.

Tyseley Rail Depot

Shore supplies, containment and control infrastructure.

Highleadon Solar Farm

49.9MW renewable energy infrastructure and 33kV inverter works.

Need electrical, mechanical or emergency cable support?

Call FlowCore MEP Ltd for project support, technical advice or 24 hour emergency response.
